

Artist Statement

I capture magic that unfolds on stage through costume design and photography. I found my artistic voice when I discovered theater. Theater productions are extraneous, but the pride that I feel when I see my hard work come to fruition is indescribable. I love capturing the fleeting moments that become frozen in time through the lens of my camera. When words aren't enough, as a photographer I have the ability to share the raw and genuine human emotions, feelings, and life experiences that happen beyond the proscenium arch. Even after the curtain falls, I create, because my whole world's a stage.
